

Master's Degree in Computer Science (MSCS)

Intended audience and goals

- Students continuing their Computer Science education
 - Prepare T-shaped professionals with cross-domain expertise

Intended audience and goals

- Students continuing their Computer Science education
 - Prepare T-shaped professionals with cross-domain expertise
- Individuals from non-Computer Science backgrounds
 - Align their profile with an evolving demand for CS professionals

Intended audience and goals

- Students continuing their Computer Science education
 - Prepare T-shaped professionals with cross-domain expertise
- Individuals from non-Computer Science backgrounds
 - Align their profile with an evolving demand for CS professionals
- International students
 - Connect with job opportunities and meet industry demand

30 credit hours

- 7 core courses
- 2 elective courses
- 1 co-op/internship OR commensurate experience
- Bridge course (3 to 9 credit hours)
 - Taken only if students lack CS knowledge
 - Help students from non-CS backgrounds succeed

BRIDGE COURSE* Programming Fundamentals (csc 500)

*Taken only if students lack CS knowledge. Alternatively, students requiring additional CS preparation can take 260 Object-Oriented Programming I, CSC 360 Object-Oriented Programming II, and CSC 364 Data Structure and Algorithms.

7		IT Project Management (MBI 650)			
6	CORE COURSES	Cybersecurity Fundamentals (MCY 601) OR Network Security (MCY 602)			
5		Operating Systems (CSC 560) OR Cloud Computing (MCY 611)			
4		SQL and NoSQL Databases (csc650)			
3		Software Quality (csc 640)			
2		Applied Artificial Intelligence (csc 625)			
1		Advanced Programming (CSC 601)			
0	BRIDGE COURSE*	Programming Fundamentals (csc 500)			

^{*}Taken only if students lack CS knowledge. Alternatively, students requiring additional CS preparation can take 260 Object-Oriented Programming I, CSC 360 Object-Oriented Programming II, and CSC 364 Data Structure and Algorithms.

9	ELECTIVE COURSES	Any CSC, MCY, and MBI course at 500- or 600-level
8	CORE COURSES	Any CSC, MCY, and MBI course at 500- or 600-level
7		IT Project Management (MBI 650)
6		Cybersecurity Fundamentals (MCY 601) OR Network Security (MCY 602)
5		Operating Systems (CSC 560) OR Cloud Computing (MCY 611)
4		SQL and NoSQL Databases (csc650)
3		Software Quality (csc 640)
2		Applied Artificial Intelligence (csc 625)
1		Advanced Programming (CSC 601)
0	BRIDGE COURSE*	Programming Fundamentals (csc 500)

^{*}Taken only if students lack CS knowledge. Alternatively, students requiring additional CS preparation can take 260 Object-Oriented Programming I, CSC 360 Object-Oriented Programming II, and CSC 364 Data Structure and Algorithms.

10	CO-OP/INTERNSHIP	Computer Science Co-op/Internship (csc 696)				
9	ELECTIVE COURSES	Any CSC, MCY, and MBI course at 500- or 600-level				
8	ELECTIVE COURSES	Any CSC, MCY, and MBI course at 500- or 600-level				
7		IT Project Management (MBI 650)				
6		Cybersecurity Fundamentals (MCY 601) OR Network Security (MCY 602)				
5	CORE COURSES	Operating Systems (CSC 560) OR Cloud Computing (MCY 611)				
4		SQL and NoSQL Databases (csc650)				
3		Software Quality (csc 640)				
2		Applied Artificial Intelligence (CSC 625)				
1		Advanced Programming (csc 601)				
0	BRIDGE COURSE* Programming Fundamentals (csc 500)					

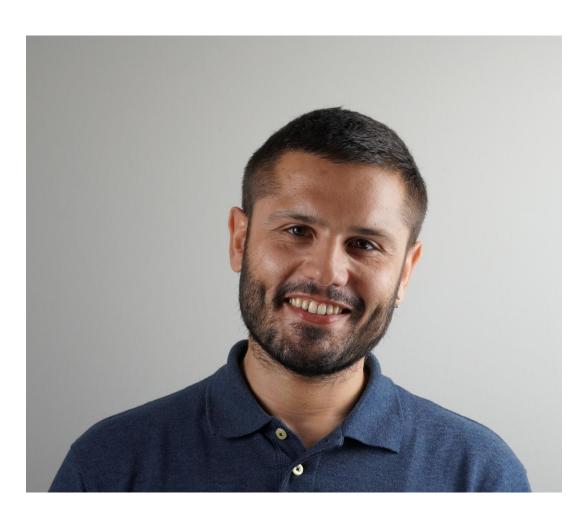

^{*}Taken only if students lack CS knowledge. Alternatively, students requiring additional CS preparation can take 260 Object-Oriented Programming I, CSC 360 Object-Oriented Programming II, and CSC 364 Data Structure and Algorithms.

Roadmap to one-year graduation

- 7-week courses
- No prerequisites
- Online and face-to-face

Fall				Spring				Summer	
1		II		I		II		I	
Course 1	Course 2	Course 3	Course 4	Course 5	Course 6	Course 7	Course 8	Course 9	Course 10

Got questions? I'd love to chat!

Nicholas Caporusso, Ph.D.

- Associate Professor of Computer Science
- MSCS Program Director
